K2 SMARTHOME DIY KIT

smanos, your smart portal to home while you roam

smanos®

Dream Big. Live Smart.

The smanos K2 Smart Hub wirelessly connects to and controls all your Z-Wave sensors around the house so that they can send vital information or status reports to one another and to your K2 and ultimately your and your family's smartphones. The smanos K2 is AC-powered, WiFi-based and has Z-Wave and RF modules built in, providing end users with endless possibilities to connect to a wide range of security sensors and smart home devices from smanos and beyond. In addition, the K2 has a backup, rechargeable battery, empowering you and your family with affordable, 24/7 protection and automation capabilities.

Easy to use

Affordable

No monthly fees

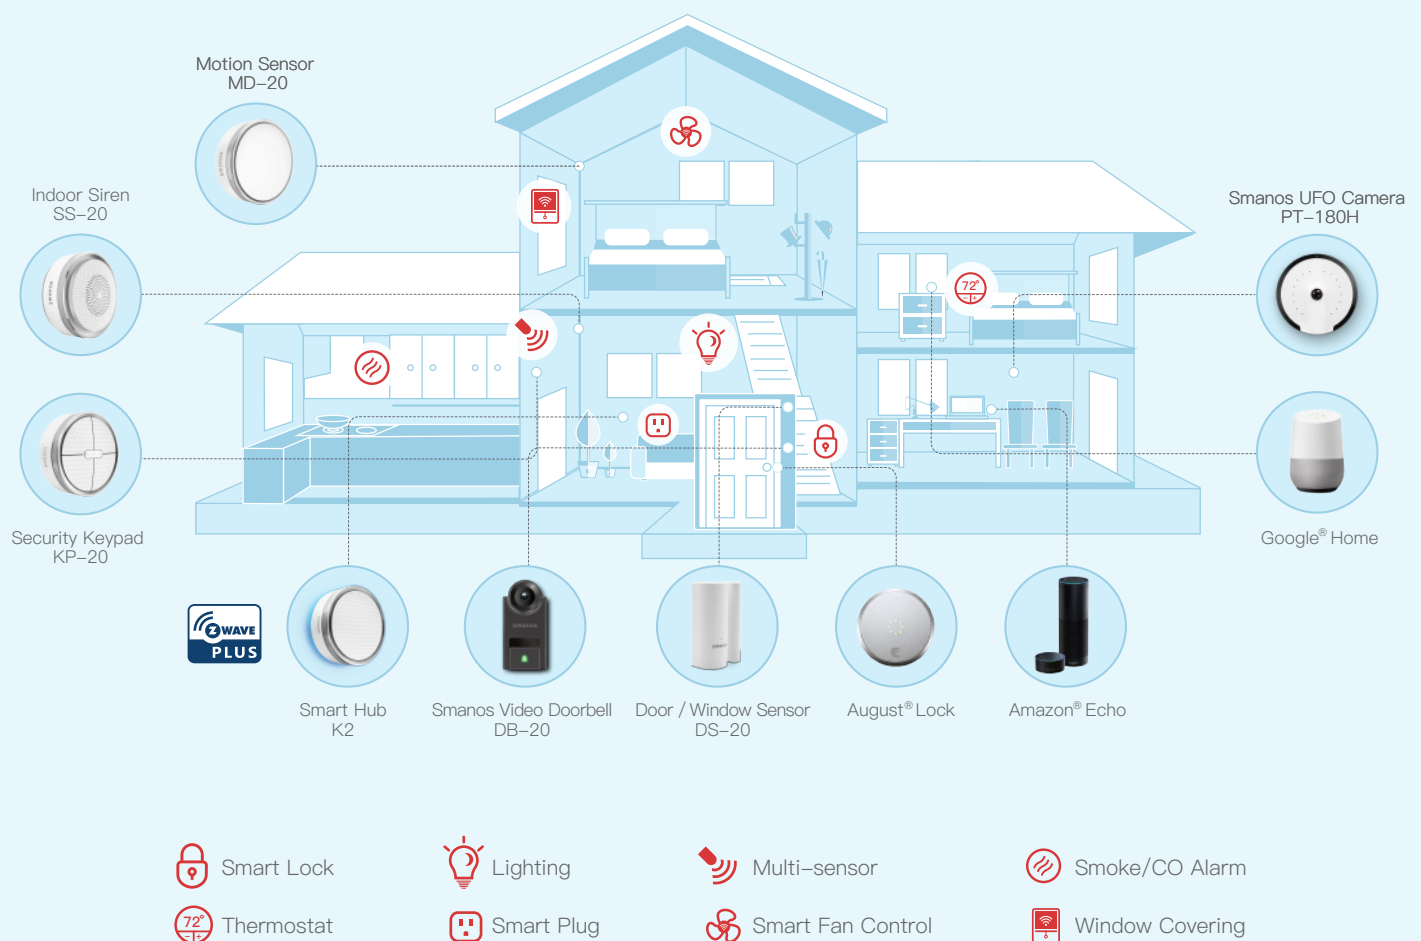

Features of K2 SmartHome DIY Kit

- K2 Smart Hub is a Z-Wave-certified controller using Z-Wave's latest S2 security
- K2 Z-Wave Smart Hub is the "brain" of your Z-Wave enabled smart home. It can be included in any Z-Wave network and work with other Z-Wave certified devices
- Sends push and email notifications of triggered events
- Connects wirelessly with a wide range of smart devices and enables them to work together
- Expandable up to 50 smanos K2 compatible wireless sensors and 232 Z-Wave certified devices
- You can monitor and control connected devices in your home using a single "smanos home" app for iOS or Android phones
- You can also share device access in the app with family or friend accounts, via email, with different authorization levels and time limits
- Voice control via the Google® Assistant and Amazon® Alexa (commands: arm away, arm stay, disarm, record video, privacy on/off)*
- Interactions with Philips® Hue lights and Nest® thermostats directly in the smanos home app

*Verbal commands are currently only available in English and German due to Google and Amazon development speeds and limitations. More verbal commands will be added according to product development.

SMART HOME & SECURITY

What's included in the K2 kit:

Smart Hub
K2

Pet-Friendly Motion Sensor
MD-20

Indoor Siren
SS-20

Keypad
KP-20

Door/Window Sensor (x2)
DS-20

Note: The accessories included in the kit are not of Z-Wave protocol; they can only work with the K2 Smart Hub through Sub-1G Radio Frequency. Z-Wave devices can be purchased from other suppliers to work with the K2 hub.

smanos home app

from security to automation
intrusion detection, cameras, doorbells,
lights, sockets and more
all controlled through one single app
