## Smart Keybox 2

The smart lockbox for remote access

igloohome.co

Supports  
Bluetooth 4.0

- Mobile app-enabled**  
Let your guests retrieve keys from your keybox when you're away by sharing PIN codes or bluetooth keys off your app.
- Stores the essentials**  
Holds up to 6 physical keys or 7 keycards. Keep a SIM card, a transport card and more for your guest in your keybox.
- No installation woes**  
Secure the Keybox to a railing via the shackle or mount it onto a wall via the 4 screwholes.
- Time-sensitive Entry**  
Be assured that your property remains secure after your guests' stay by customizing the validity periods of your PIN codes.
- Works Offline**  
Our encryption technology allows your keybox to work without internet connectivity, increasing reliability against WiFi hacking.
- Automate Check-in**  
Airbnb hosts can sync listing calendars with their igloohome account so that PIN codes are automatically created for guests.

Advised to use in sheltered areas
