

Simple. Innovative. Limitless.
Give your development the Quantify edge

As a developer, you keep a keen eye on what will give your development the edge it needs.

With smart home technology rapidly becoming a standard inclusion, you need technology that enhances the look of your development, while being simple and cost effective to install.

You need something with all the features a buyer desires and more.

Quantify Technology have a future-proof solution that is simple to deploy and highly innovative. It's the perfect choice for your next development.

Simple

This isn't your average home automation system. Quantify's truly intelligent solution is simple to plan, install and commission, just how you like it. The Quantify installation planning software offers templated installation configurations, allowing quick and easy deployment to a single or entire block of apartments. The Quantify cloud platform keeps the system future-proof, with the ability to make changes remotely or apply upgrades as needed.

With electricians in mind, the products use standard AC wiring and wall boxes with no custom cabling required. This means it works for new or retrofit installations. With an intuitive installer app provided to commission and test the system, your electricians will thank you for making the process so simple.

Innovative

Quantify knows the overall look and feel of your development is vital, that's why devices are designed to offer everything your buyers desire and more. There's no time like the present to give customers the intelligent home living experience they need and yearn for. You can deliver an aesthetically sophisticated development with glass touch panels made from high quality materials that come complete with a choice of colour and trim rings to complement any existing or new interior design.

Offer your customers the luxury of various user interaction modes, with voice, touch or app control, so they get the best out of their smart home. Blow your customers away with Quantify's stylish and truly intelligent solution.

Limitless

It's not just first impressions that count. It's about what the product can offer your buyers in the years to come. Beyond the classy finishes and simple installation comes a future-proof solution that will make your customers smile long term. Surprise and delight your buyers with a home automation system that adapts effortlessly with their lifestyle and changing needs.

Thanks to Quantify's unique technology platform, upgrades will be seamless and simple. Your customers can always have the most up-to-date technology at their fingertips without the hassles of needing specialist technicians or an electrician.

Now, that's not just limitless, it's priceless.
